

AN **EASIER WAY** TO GET FUNDING FOR YOUR FRANCHISE.

One size does not fit all. We work with you to identify and customize the best capitalization solution so you can move forward with confidence, and it doesn't stop there. Thousands of business owners and top franchise brands trust **FranFund®** when it comes to securing funding to meet their strategic growth initiatives.

OUR COMPREHENSIVE FUNDING SOLUTIONS INCLUDE:

■ **Business Loans**

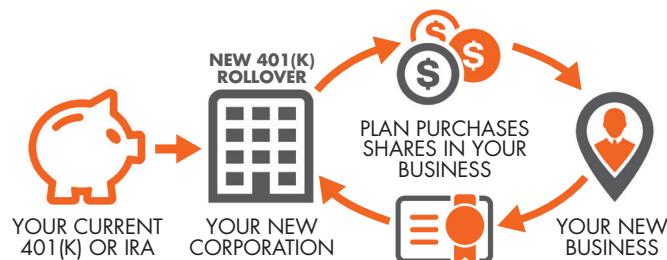

Our lending division creates a comprehensive loan package and utilizes our network of SBA and conventional lenders to secure funding.

■ **FranScore™ Pre-qualification Assessment**

The first and most important step in the loan acquisition process is to obtain your FranScore™ and work with the FranFund® Lending Team to create a fundability assessment of your specific situation. FranScore™ utilizes the latest in credit scoring and business evaluation technology from FICO®, Equifax®, and TransUnion®. Once completed, the FranFund® Lending Team evaluates the results leveraging 20 years of predictive loan data and industry expertise. We will help you understand your credit profile from a lender's standpoint and will determine your "probability score" of obtaining a loan. After obtaining your pre-approval, you can proceed with identifying the right business opportunities with confidence!

■ **FranPlan® 401(k)/IRA Business Funding**

An excellent option for those looking for a funding solution that does not create any debt. A FranPlan® is a "Qualified Retirement Plan" that meets the requirements of the Internal Revenue Code. You are eligible to invest your own pre-tax retirement savings into your small business and the FranPlan® will be a shareholder of your new corporation.

The FranPlan® allows you to use an existing retirement account to fund your new business with no debt, no taxes and no penalties.

Fast forward your future.
